# WELCOME TO OUR MONTHLY ROUND-UP JULY EDITION

In July, we distributed kitchen sets in Afghanistan to support families that had lost their homes. In Gaza, we achieved our goal of distributing **1 million** hot meals and continued to provide clean water and medical care through our mobile clinic. We also ensured that a convoy carrying fresh food parcels entered Gaza. In Pakistan, we partnered with Punjab Emergency Services to provide first aid training to orphaned children, distributed wheelchairs to people living with disabilities, and installed water coolers. Additionally, we helped individuals rebuild their livelihoods by providing sewing machines, kitchen gardening tools, milking goats, and poultry farms. In Sudan, we distributed hygiene kits and began delivering bread from our

emergency bakery project. In Syria, we continued to operate our mobile clinic and the Al Zohoor clinic while progressing with the construction of Al Zohoor School and additional housing in Al Yasameen village—our third village construction as part of our housing project. We also built two solar-powered water wells and organised a drawing day for children with developmental disabilities. In Yemen, we completed our bakery project, provided dialysis kits to a hospital, and distributed coffee tree seedlings along with training to help people establish sustainable livelihoods. During July, we remained committed to being there for every human in need, delivering support where it was needed most, and ensuring that no one was left behind.
